Painesville, O., March 6.—(P)—Mrs. Velma West, the blonde hammer stayer of Perry, O., will enter the woman's reformatery at Marysville tomorrow to begin a life sentence for the slaying of her young husband, Thomas Edward West, son of a wealthy nursery man. Velma escaped trial for first degree murder this morning when Prosecutor Seth Paulin accepted the plea of guilty to a second degree charge.

The 21 year old girl, jubilant over the disposition of the charge, looked forward to life within the reformatory walls as a change to be desired.

Cutten May Lead 600 Million Railway Equipment Merger

"Belgian Benedict Arnold" Gets Life Imprisonment

Efforts were reported yesterday to ward putting railway equipment manufacturing on a more profitable basis through the merger of six corporations having total assets of about \$600,000,000.

Arthur W. Cutten of Chicago and the Fisher brothers of Detroit, stock market operators and capitalists, are said to be making the efforts. It is said they will use stock they have in various corporations to form a holding company. The foundation of the merger is said to include the Baidwin Locomotive works, declared. Only one change of importance was noted in the Thompson-Small entries, Clarence S. Piggott withdrawing in the Ninth ward to make way for Gotthard A. Dahlberg. In several wards there were two men with a Thompson label left to campaign against each other, notably in the Fourteenth ward, where Howard P. Reddy is the organization choice and James W. LAUNCHES President Still Has Hope for 225 Million Tax Cut NEW ATTACK CASE

Despite a tendency by congress to increase appropriations above budget estimates, the President thinks that a moderate reduction can be made. It was indicated, however, that if congress should approve a number of new projects pending, the President will take the position that the program for a cut in taxes will have to be abandoned.

Anticipate Floed Control.

Flood control legislation, if approved along lines advocated by the President, will mean an additional appropriation of \$20,000,000 or \$30,000,000 for the fiscal year 1929. This item has been anticipated and it will not interfere with the tax reduction program.

The Denison-Deneen bill, increasing the capital stock of the inland water-doned.

It is the President's belief that tax cecepts on March 15, giving the first definite line on taxable income of 1927, will show nearly as much revenue from income taxes as last year.

The experience in that tournament must have convisced any one of open mind that the participants, far from suffering any injury, were the better for their participation. The physical benefits were manifest. A boy who did not live cleanly d. had no chance. What impressed a good many observers even more forcibly was a somewhat more intangible benefit. Most boys fight occasionally and those who are natural fighters seldom lack for practice, but it is one thing to take on an opponent of known prowess in the alley and quite another to take on a stranger in the presence of thousands. The worth of such an experience in testing and developing self-confidence and a fighting heart was manifest.

Garrett centered his fire on the Republican leadership in congress and wound up with the observation that the "present outlook is that this session is to pass into history as wellnigh a blank page."

Tilson, reviewing the work of the Republican party in the last seven years, emphasized the reduction of the public debt, institution of the budget system, and revision of the tariff. Veering to the coming campaign, he said there was no issue "about which the public generally feels more deeply or talks more vehemently than prohibition."

added:

"It is almost a certainty that neither party will make adherence or opposition to prohibition the test of party loyalty, disregard other issues, and, by accepting support only upon this ground, alienate all those former members of the party who de not agree on this program."

Of the religious question he said:

"It is hard to believe that with all our professions of religious libtrly and tolerance the American people will permit such an issue to be controlling on either side."

PREDICTS SHIP ROUTE, CALUMET TO NEW ORLEANS

A direct water route from the great plants of the Calumet region to New Orleans within a few years was predicted by State Senator Henry W. Starr of Chicago in an address yesterday before the fifth annual Lake Michigan sanitation conference at Gary.

"I intend to present a bill at the next session of the Illinois general assembly providing for a widening of the Calumet-Sag canal to 120 feet," Senator Starr said.

"Already I have been assured that in only two years there will be a deep water route from Chicago to the gulf.
"If my bill passes, and I think it will, traffic from the Calumet region will pass direct to the ship canal, without having to go by way of the Chicago river."

About 200 delegates, representing all the states adjoining Lake Michigan, are attending the conference, which will last through tomorrow. A practical program to end pollution of the lake by the dumping of industrial wastes is one of the most important subjects to be discussed.

40-inch crepe de chine and georgette printed in delightful patterns ride in on the crest of the vogue for printed silks. Choose from thirty bright, springlike floral effects or dashing modernistic patterns on white, black, or colored grounds.

Outstanding values in slenderizing styles

Echoing the dotted vogue is this graceful jabot model in graduated dots. Other models may be chosen. Black, navy, gray, beige and conservative combinations. For the short, larger sizes, 371/4 to 471/4.

for the tall, larger sizes, 421/2 to 521/2.

This three-piece tweed ensemble notably priced

The slim, long line of its seven-eighths length coat is Paris-sponsored, as is its smartly pleated skirt. A fine, heavy grade of crepe silk fashions the cleverly draped blouse. Soft greens, grays, tans and the new middy blue may be selected at this decidedly moderate price. Sizes for women.

Remarkable offering of felts and viscas at \$10

Decorative handwork makes them exceptionally desirable at this price. For the smart woman the color choice is interesting, inasmuch as it ranges from the new dainty eggshell tint to deepest blue and black. The effective side lacing of the rose-glow hat and the trio of handstitched wheel-like pieces on the moon-blue felt are typical decorative effects. PROGRAM 16.4 Meters-720 Kild eday, March 7, 1928

choicest of things pleasing. They called it a "dream program" because of several of the titles of sings by Craig Campbell, and we will best remember the program by this tenor of "The Little Church Around the Corner in New York City." Among these were "My Dream of You." [Paul Rodney] and "You, Just You" [T. Richardson]. The orchestra numbers were new, sparkling, lovely.

Spoils Children's Hair

Any child can have beautiful hair—healthy and luxuriant. It is simply a matter of shampooing.

Proper shampooing makes the hair soft and silky. It brings out all the real life and lustre, all the natural wave and color, and leaves it fresh looking, glossy and bright.

While children's hair must have frequent and regular washing to keep it beautiful, fine young hair and tender scalps cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why thoughtful mothers everywhere now use Mulsified Cocoanut Oil Shampoo. This clear, pure and cannot possibly injure.

Two or three teaspoonfuls of Mulsified is all that is required. It makes an abundance of rich, creamy lather which cleanses thoroughly and rinses out easily, removing every particle of dust and dirt.

It leaves the hair soft and easy to manage and makes it fairly sparkle with new-life, gloss and lustre.

You can get Mulsified Cocoanut Oil Shampoo at any drug store.

Unemployment The Great Fear

Unemployment is due to underconsumption. Underconsumption is caused by low or insufficient wages.

Had it not been for organized labor, wages would have been lowered long ago. Combinations of wage earners have increased wages. There has followed employment, which has provided more money to spend and more time for spending. The National Park Bank of New York, Trustee.

The following information has been summarized by Dr. W. Huber and Dr. L. Holle, Managing Director and Vice-Managing Director, respectively, of Gelsenkirchen Mining Corporation, from their letter dated March 5, 1928, copies of which may be obtained upon request, and is subject to the more complete information contained therein:

Gelsenkirchen Mining Corporation, organized under the laws of Germany in 1873, is at the present time both a holding and operating company. Its largest single asset consists of about 39%, or \$74,229,344 par value, of the outstanding capital stock of United Steel Works Corporation, including \$7,871,136 par value which the company of th pany has agreed to loan, subject to return in kind. The company owns and operates the coal mine "Monopol", which in 1927 produced 1,169,310 metric tons of coal. Coal reserves owned, either directly or through wholly-owned subsidiaries, are estimated to contain more than three and one-half billion metric tons of recoverable coal.

Among manufacturers of iron and steel, United Steel Works Corporation ranks in productive capacity second only to United States Steel Corporation. Its coal properties are among the largest in the world with respect to present productive capacity and reserves. At the present time, the corporation is producing more than 40% of the entire German steel output and employing about 198,500 persons.

These \$15,000,000 Six-Year 6% Secured Notes are to be the direct obligation of Gelsenkirchen Mining Corporation and, in the opinion of counsel, are to be specifically secured by pledge with the trustee of the Reichsmark equivalent of \$30,000,000 par value of shares of capital stock of United Steel Works Corporation having a market value, based on current quotations on the Berlin Stock Exchange, of more than 200% of the principal market value, based on current quotations on the Berlin Stock Exchange, of more than 200% of the principal amount of these notes. The company will covenant that the value of the security for the notes, determined as provided below, shall at all times be maintained at not less than 150% of the principal amount of the notes from time to time outstanding. To maintain such value the company may pledge additional United Steel Works Corporation stock or other securities listed on the New York or Berlin stock exchanges, which stock or securities thall be valued at their market value based on then current quotations, or may pledge or mortgage other securities or property, which shall be valued on the basis of appraisals; all as to be more fully defined and stated in the indenture. The indenture will provide that the stock of United Steel Works Corporation initially to be pledged may be withdrawn only in proportion as notes are retired, but will permit the withdrawal of any additional security subsequently pledged or mortgaged, provided such withdrawal does not reduce the value of the remaining collateral below 150% of the principal amount of notes at the time outstanding.

Net earnings, as reported by the company for the six months ended March 31, 1927, including results of operations of predecessor companies, after depreciation and Dawes plan payments, available for interest and profits taxes, amounted to more than \$2,400,000. Included in such earnings is a dividend of 3% (at the rate of 6% per annum) which was paid on the company's holdings of stock of United Steel Works Corporation in respect of the first six months of operations of such corporation. At a meeting held on March 2, 1928, the board of directors of United Steel Works Corporation voted to recommend for stockholders' approval a dividend of 6% on its stock for the fiscal year ended September 30, 1927. On the basis of this dividend, the company should receive during the current fiscal year ending March 31, 1928, more than \$4,400,000 in dividends upon United Steel Works Corporation stock now owned by it, or more than 4 times the maximum annual interest requirement on the entire interest-bearing debt of the company to be outstanding upon completion of present financing. In addition, the income of the company for the nine months ended December 31, 1927, from mining operations and other normal sources exclusive of such dividends, after deducting the company's total operating expenses, deprecia-EARNINGS formal sources exclusive of such dividends, after deducting the company's total operating expenses, depreciational taxes (including maximum payments under the Dawes plan estimated on the basis of present assessmilar period on the entire interest-bearing debt of the company to be outstanding upon completion of present

CTITZENS TRUST & SAVINGS BANK, LOS ANGELES, TRUSTES

The following information has been furnished by Mr. W. A. Foreman, President:

Business: Foreman & Clark, Inc., and Foreman & Clark Manufacturing Company are affiliated companies engaged in the manufacture and sale of popular priced men's suits and overcoats. These comp today have a net worth of over \$5,180,000 and are the outgrowth of a small store opened in Los Angeles in 1909 with a capital of \$310. Annual retail sales of Foreman & Clark, Inc., are about \$7,500,000; a chain of ten retail clothing stores is operated in New York, Chicago, Los Angeles, San Francisco, St. Paul, Des Moines, Kansas City, Oakland, and San Diego. Modern manufacturing plants are operated at New York City, Watervliet, Troy and Corning, N. Y., and Sayre, Pa., in which most of the clothing sold by the retail stores is manufactured.

Security: This issue of bonds will be a joint and several obligation of Foreman & Clark, Inc., and Foreman & Clark Manufacturing Company, whose net assets as of January 31, 1928, after giving effect to this financing, as certified by Haskins and Sells, after deducting all liabilities except these bonds, amounted to \$6,682,275.26 or approximately \$4,455 for each \$1,000 bond to be outstanding. The issue will be the sole funded debt of the companies and will be specifically secured by pledge with the Trustee of all of the issued and presently to be issued capital stock of the Foreman Building Corporation, representing an equity at cost of approximately \$2,250,000.

Purpose of Issue: The Foreman Building Corporation, all the capital stock of which is owned by Foreman & Clark, Inc., has purchased the southwest corner of 7th and Hill Streets, Los Angeles, and has begun construction of a 13-story modern store and office building, which when completed, together with the land, will have an estimated value of approximately \$3,750,000. The proceeds of this issue of bonds will be entirely used in connection with the acquisition and improvement of this property. The indenture securing this issue limits the amount of mortgage or other indebtedness which the Foreman Building Corporation may place against the 7th and Hill Street property to \$1,500,000, which will be placed privately. placed privately.

Balance Sheet: The consolidated balance sheet of Foreman & Clark, Inc., and Foreman & Clark Manufacturing Company, as of January 31, 1928, after giving effect to this financing, shows total current assets of \$4,081,854.05 as compared with total current liabilities of \$823,583.07, or a ratio of 4.95 to 1. The present capital and surplus account, amounting to approximately \$5,180,000, represents earnings that have been left in the business, the initial capital of \$310 having been the total outside investment.

Earnings: The combined net earnings of the borrowing companies for the six years ended December 31, 1927, available for interest, after depreciation but before Federal Income Taxes, averaged \$840,553.06 per annum or over 9 times the maximum annual interest requirements on this issue of 6% bonds. In each of the past six years since incorporation net earnings have amounted to more than 5 times such maximum annual interest charges.

No consideration has been given in this financing to the earnings of the Foreman Building which, according to an estimate furnished us, should amount to approximately \$130,000 per annum after completion of the building.

Management: The various activities of Foreman & Clark are under the direct supervision of W. A. and L. O. Foreman. Able executives of long experience with the company are in charge of the various branches of the business. There will be no change in management as a result of this financing.

We offer these bonds for delivery when, as and if issued and received by us, and subject to approval by Mes Gibson, Dunn & Crutcher, Attorneys, Los Angeles, of all legal proceedings covering the issuance of the box Statistics and statements given above, while not guaranteed, are obtained from sources which we believe to be relia

Thirty-Fve Year 5% Sinking Fund External Loan Gold Bonds

To be dated March 15, 1928

Cumulative sinking fund, commencing in 1933, calculated to be sufficient to retire the entire issue by maturity by call of Bonds by lot, but Government may deliver Bonds at par in lieu of cash

The following is taken from a statement furnished us by The Royal Finance Department and The Royal Statistical Department of the Kingdom of Norway, copies of which will be supplied upon request:

Guaranty Trust Company of New York, Fiscal Agent for the Loan

These Bonds are to be the direct obligation of the Kingdom of Norway, which pledges its full faith and credit for the payment of principal, interest and sinking fund. The loan contract will provide that if the Government shall sell, offer for public subscription or in any manner dispose of any bonds or loan secured by lien on any revenue or asset of the Kingdom, the Bonds of this loan shall be secured equally and ratably with such bonds or loan. There are at present no loans outstanding which are so secured.

The proceeds of this issue are to be used in consolidating short term indebtedness of the Government.

The total national debt, after giving effect to this financing, will amount to \$456,751,676, compared with \$464,069,000 as of June 30, 1925. As against this, the Government owns properties valued in excess of \$360,000,000, most of which are revenue-producing, such as railroads, telegraph and telephone lines, forests, mines and hydro-electric plants.

No default of principal or interest has ever taken place on a Norwegian National Government loan. The high credit of the Government is indicated by the fact that from 1886 to the outbreak of the World War the net cost to the Government of its various loans ranged from 3.10% to 4.11%.

Application will be made to list these Bonds on the New York Stock Exchange

Interest payable March 15 and September 15. Principal and interest payable in New York at the principal office of Guaranty Trust Company of New York in U. SURFACE LINES
REPORT RECORD
EARNINGS IN '27

BY O. A. MATHER.

Although operating under a temporary franchise last year and with one of the companies in receivership, the Chicago Surface Lines carried the largest number of passengers and had the largest earnings in their history. This is shown in the annual report issued yesterday by President Henry A. Blair. Total rides for the year ended Jan. 21 were 1,525,441,127, including transfers, an increase of 16,471,225 ever 1925, while revenue passengers, not including transfers, totaled 382,453,647, an increase of 36,293,934. Gross earnings totaled 461.—224,752, a gain of \$451,151, and residue receipts were \$13,393,256, an increase of \$91,145.

City Gets \$2,506,224.

After joint expenses and interest on the decrease in net income. Net profits for the year after all charges

City Gets \$2,500,224.

After joint expenses and interest on the purchase price fixed in the 1907 ordinances, which expired a year ago, there remained \$4,545,585 to be divided between the companies and the city, the former taking \$2,045,638 and the latter \$2,500,224. The companies receipts were equivalent to a return of about \$4 per cent. The average fare per ride, including free and transfer, was 3.84 cents.

The Chicago street car system was one of the few in the country to show an increase last year, according to Mr. Blair. Service was increased by 3,200,000 passenger car and bus miles.

"Although borrowing power was curtailed by the franchise situation," Mr. Blair continues, "more track, new and rebuilt, was constructed by this system than by any other street railway in the country. The most significant fact is the continued and consistent increase in riding.

Banks' Combined Statement.

The combined statements for all Chicago banks show the following declines since the end of 1927: Loans and discounts, \$53,463,000; total deposits, \$39,586,000; cash resources, \$65,707,000; and savings deposits, \$12,023,000. But compared with March 23, 1927, the following increases are shown: Loans and discounts, \$50,924,000; total deposits, \$136,091,000; cash resources, \$6,824,000; and savings deposits, \$15,799,000.

The decline in savings deposits in the last two months is attributed partly to the usual withdrawals following the payment of interest on Jan. 1. But another factor is the fact that there is more unemployment than a year ago and workers have been able to save less or have even dipped into their savings. Savings deposits of the national banks declined only \$1,106,000 but those of the state banks decreased \$19,917,000.

State Bank Loans Increase. Banks' Combined Stat

Opposite tendencies are shown in leans, with the national banks showing a decline of \$54,235,000 but the state banks having an increase of \$772,000. Total deposits have declined \$61,915,000 at the national banks and \$27,671,000 at the state banks, while cash resources of the former receded \$25,051,000 and those of the latter, \$41,656,000.

Because of several consolidations in the last year that have favored the national banks and the reports were made a month later last year, comparisons with a year ago are faulty. However, the national banks show the following increases: Loans and discounts, \$75,338,-000; total deposits, \$151,278,000; cash resources, \$22,474,000; and savings deposits, \$54,226,000. The state banks show an increase of \$1,636,000 in loans but the following declines: Total deposits, \$15,187,000; cash resources, \$22,650,000, and savings deposits, \$33,427,000.

(ustodianships are Not expensive

DECAUSE of the professional character of the Dattention and management given to securities deposited with our Trust Department under a Custodianship arrangement, some may have the idea that such a service is quite expensive. On the contrary, our annual Custodianship charges, during the year 1927, averaged less than eighty cents for each thousand dollars face value of securities deposited.

The annual charges of our Trust Department for Custodianship service are as follows:

Bonds: \$1 per \$1000 total face value Stocks: 50c per \$1000 total face value

Stocks of no par value: 3c per share Mortgages: \$2.00 per \$1000 total

Establishing a Custodianship with the Illinois Merchants Trust Company does not involve the formality of a trust agreement and does not disturb existing relationships. It is opened simply by depositing the securities, for which an official receipt is issued, and specifying in writing what disposition is to be made of the income. Neither ownership nor control of the securities is surrendered in any way and the arrangement can be terminated at any time upon presentation of the receipt.

ONCE AGAIN we delebrate the closing of a year of safety and satisfaction for our thousands of investors in every state in the Union.

Millions of dollars worth of Cochran & McCluer first mortgage real estate gold bonds have been purchased without the service of a single salesman (we employ none). We appreciate this recognition of the Cochran & McCluer direct plan of serving investors—a plan which gives the purchaser the highest interest rate consistent with safety, now 61/2%, and the personal attention of our officers.

As a mark of our appreciation to our regular cus-tomers on our 47th Anniversary—and as a token of welcome to new investors—we have chosen this beautiful lamp as a gift to each purchaser of our certified first mortgage bonds, either for cash or on payment plan, while this offer is in effect. Bonds are in denominations of \$100, \$50 as \$10 starts you on the Retire in 15 Years Plan and

entitles you to our amazing gift offer. The lamp, with its rich colors and tasteful Spanish Galleon design, will be a charming addition to any home. be a charming addition to any home. By a touch of the finger, it may be regulated to six varied degrees of light—from gentle glow to vivid brightness. It will make an appro-priate and decidedly attractive gift. THE gathering of accurate facts about secur-ities, business, and finance is a very specialized task. The classification and interpretation of such facts is the job of statistical experts.

As the result of over 39 years' experience in the investment field, we have developed a Statistical Department, which we believe, should be of real assistance to you in determining the values back of your securities. Its findings are utilized not only by ourselves, but by our customers, as a part of our regular service to them.

HORNBLOWER & WEEKS

The city of the future is hard to visualize. But think how impossible it would have been for H. O. Stone, when he came to Chicago in 1835, to foresee the city of today.

H. O. Stone & Company, with its foundation laid almost a century ago, when Chicago was only a frontier village, has proved a constructive force in the upbuilding of this city.

The thousands of conservative investors who have bought H. O. Stone bonds, secured by income-earning Chicago properties, have found them safe and satisfactory investments.

These bonds grow stronger and safer each year as real estate values rise and the city advances toward its larger destiny—the greater Chicago of tomorrow.

Call at our office, phone Franklin 5600, or write for our new booklet, T-37, "What Makes H. O. Stone Bonds Safe?"

THROUGHOUT their entire existence, Lackner, I Butz & Company have steadfastly advocated for their clients a balanced program of investment.

To the investor whose holdings are principally general market secufities, we often suggest that balance be achieved by the addition of first mortgage real estate bonds of good yield and satisfactory marketability. And, further, in the selection of the real estate securities, we usually advise diversification between residential, business, and industrial property bonds.

Thus Lackner, Butz & Company are in a position to give their clients investment recommendations of first mortgage real estate securities, based upon long practical experience in working out these balanced programs.

You are invited to write us now for recommendations.

Despite steadily decreasing cattle reseipts, buyers forced a sharp reaction in the market yesterday, pounding better grades down fully 25c, with some instances showing even sharper losses. Choice heavy beeves stopped at \$16.15, against a \$16.50 top Monday and \$16.25 the previous Tuesday. Chicago cattle receipts so far this year show a decrease of \$0,000. Cows and heifers were not plentiful and moved slowly at steady prices. Calves were unchanged. Scarcity of stockers and feeders held prices firm in this branch.

Scranton-Spring Brook Water Service Company

Dated December 15, 1927 To mature serially December 15, 1929, to December 15, 1933 Principal and semi-annual interest, June 15 and December 18, payable in New York City at the office of G. L. Ohrstrom & Co. Inc., or at the office of the Trustee, without deduction for normal Federal income tax not to exceed two per cent per annum. Coupon notes in denominations of \$1,000 and \$500, registerable as to principal. Redeemable, at the option of the Company, in whole or in part, at any time upon sixty days' previous published notice, at 100 and accrued interest, plus a premium of one-quarter of one per cent, for each six per cent of such interest per annum, to resident holders upon written application within sixty days after payment. Free from Pensylvania Four Mills Personal Property Tax. Scranton Lackawanna Trust Company, Scranton, Pennsylvania, Trustee.

Business: Scranton-Spring Brook Water Service Company is to acquire the properties now owned by The Spring Brook Water Supply Company and Scranton Gas & Water Company and its subsidiaries, which acquisition has been authorized by The Public Service Commission of the Commonwealth of Pennsylvania. These properties supply various cities and communities in Pennsylvania with water service and/or manufactured gas service for domestic and industrial purposes. The population of the communities served is about 640,000. The cities served include Scranton, Wilkes-Barre, Pittston, Nanticoke, Dunmore, Plymouth and many other communities located in the thickly settled and substantial Lackawanna and Wyoming Valley districts in Pennsylvania. The Company will have the benefits of the expert technical and administrative staff of Federal Water Service Corporation, which controls one of the largest groups of water works systems in the United States. The properties are operated under the jurisdiction of The Public Service Commission of the Commonwealth of Pennsylvania to the extent provided by the laws of such Commonwealth.

Security: This issue of Serial Gold Notes will be a direct obligation of Scranton-Spring Brook Water Service Company. The value of the properties, as recently appraised by competent engineers on the basis of reproduction cost new, less depreciation, plus additions and improvements to January 1, 1928, at cost, is over \$61,390,000. After deducting from this valuation the principal amount of all prior obligations now and presently to be outstanding, there remains an amount equal to more than \$6,500 for each \$1,000 of these Notes. The Company will covenant in effect that the proceeds from the sale of an additional \$6,000,000 principal amount of First Mortgage & Refunding 5% Gold Bonds, Series A, which may be issued under the Indenture of Pennsylvania Water Service Company, to be assumed by Scranton-Spring Brook Water Service Company, which additional bonds have been or will be authorized to be issued in respect of the properties existing as of March 1, 1928, to be presently owned by the Company, and the proceeds from the sale of an additional 63,300 shares of its Preferred Stock which may be issued against the properties to be owned by the Company as of March 31, 1928, shall and will first be used for the retirement of this issue of Serial Gold Notes.

Interest payable without deduction for Nermal Federal Income Tax not in excess of 2%, and certain state taxes refunded in Pennsylvania, Iowa, California, Kentucky, Minnesota and Michigan.

FIRST TRUST AND SAVINGS BANK, CHICAGO, ILLINOIS, TRUSTEE

We summarise as follows from information furnished by Ira C. Copley, President of the Company

These bonds are the direct obligation of The Copley Press, Inc., which owns and operates, through wholly owned subsidiaries, five daily newspapers: Aurora (III.) Beacon-News, Joliet (III.) Herald-News, Elgin (III.) Courier-News, San Diego (Calif.) Union, and the San Diego Tribune. All of the stock of these properties is deposited with the Trustee as security for these bonds.

This issue of \$3,200,000 constitutes the sole funded indebtedness of the company and its subsidiaries, and the company covenants that while any of these bonds are outstanding, neither the company nor any subsidiary will mortgage or pledge any of its assets, except that property may be acquired subject to purchase money mortgage or existing indebtedness.

The payment of principal and interest is unconditionally guaranteed by Ira C. Copley. The guarantee agreement includes a provision that the Will of the guarantor shall provide for the deposit with the Trustee of marketable securities equal in value to the then outstanding bonds, which deposit shall be applied, as the securities mature or are sold, to the redemption of bonds of this issue. Combined net earnings for the past three years, as reported by Messrs. Price, Waterhouse & Co., adjusted to give effect to the elimination of certain non-recurring charges, after depreciation and available for interest and federal taxes, were as follows:

1925.....\$612,864.74 1926..... 814,232.97 1927..... 739,564.28

The average of the above three years' earnings is \$722,220 or more than 4.10 times the greatest annual interest charge of this issue. The two San Diego papers have been recently acquired, and under the management of The Copley Press are expected to show increased earnings.

PURPOSE OF ISSUE

The major part of the proceeds of this issue is being applied in connection with the acquisition of the two San Diego papers, and the balance for other con-

ADDITIONAL BONDS

Additional bonds in the amount of \$4,300,000 may be issued for the acquisition of additional newspaper properties, based on 60% of the cost or appraised value of such properties, whichever is lower.

The trust indenture also provides that 5% of the annual net earnings remaining after payment of interest and federal taxes, shall be paid into a sinking fund each year for the retirement of bonds of the last maturity then outstanding, by redemption or purchase at not exceeding the redemption price.

These bonds are offered when, as and if issued and received by us, and subject to the approval of counsel. The legality of the issue and the guarantee are subject to the approval of Mesers. Alschuler, Putnam, Flannigen and Johnson, of Aurora, for the corporation, and of Mesers. D'Ancona & Pflaum, of Chicago, for the bankers. It is expected that delivery of temporary or permanent bonds will be made on or about April 9, 1928.

Three Exhibitions of Paintings Hold Interest This Week

BY ELEANOR JEWETT. Three exhibitions hold the floor for the remainder of this week. At the Illinois Women's Athletic club there is a stunning snow of paintings by Illinois men artists. Edgar Cameron has a lovely, wistful canvas, a corner of a little forgotten French town. Charles P. Killgore shows a masterful composition of mountains and lake from the Tahoe region. Frederic M. Grant has a magnificent still life, and Gerald A. Frank shows a portrait. Carl Bohnen is represented by two portraits, one, gracious and oldfash-ioned, of his wife, the other a human little picture of his son, Roman, as a

The Renaissance society opened an exhibition yesterday of modern French painting and sculpture in room 45 of the Classics building of the University of Chicago. The exhibition has been lent by the Chester Johnson galleries and is surprisingly complete. Paintings by Redon, Henri Martin, and work by Meriset are shown, and sculp ture by Bourdelle, with a special group by Albin Polachek. The exhibit vill run through March 13.

At the Palette and Chisel club there is an unusually good one man show with the exhibit there of paintings by Holger Jensen. His water colors are all charming. Among the larger pictures there is little choice, though each canvas has something to comof 1365 East 48th street announce Elizabeth Louise, to Robert Cartton "A Kentucky Bridge" is utterly

In a talk with a woman close to 50 I learned with surprise that she has never had a shampoo from any other hands than her pwn. Though this woman has unlimited means, she believes in doing this beauty job for herself. No one, she says, can give you the same scalp rubbing and massing as you can give yourself. Her hair is a good argument, if not for home shampoos, at least for vigorous scalp rubbing and the massage abe spoke of.

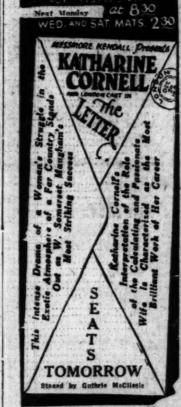

Is used in the last rinse water after New York, March 6.—[Special.]—Mr. and Mrs. C. Frederick Forthingham and Mrs. and Mrs. George B. Wagstaff returned today to the Drake, after several weeks in Europe. It is well for the scalp and hair to rinse off finally with cool water. Then rub dry with warmed bath towels. If the skin is naturally dry, small quantity of almost oil or vascline the scalp. Drying with the bath towel is simply giving additional massage which the state towel is simply giving additional massage which the have returned to the St. Regis after hot air drier does not supply.

Some women are better off having their shampoos done for them by a professional hairdresser. They haven't the strength, or think they haven't, and do not put the right effort into the hair cleansing job. Then some never learn to use sufficient water on the scalp and hair to wash out the lather.
"A head of hair," says Dr. A. H. Ohmann-Dumesnil, "after a proper shampoo should impart to its pos-sessor a feeling of well-being and com-fort and not be a source of annoyance and discomfort. A good shampoo should, in every respect, resemble a detergent method not alone to cleanse the hair and scalp, but also to render the former lustrous and give it an appearance of vigor and thus promote its growth and put in it a force that will keep it healthy and prevent its falling out."

Wet the hair thoroughly first with warm water. With soap that lathers readily make thick suds on the hands and rub vigorously into the scalp. It is simpler to reduce soaps or flake shampoos to liquid form by the simple process of adding boiling water. ple process of adding boiling water. Then, too, there are good liquid sham-poos available on the market. But after the vigorous rubbing, wash out the lather with a copious stream of warm water, either from a shower

Five Year Old Jersey Boy Joins Ranks of U. S. Millionaires

New York, March 6.—[Special.]—A five year old boy joined the ranks of America's millionaires today.

John Mortimer Coward III. of Glen Ridge, N. J., is to receive two thirds, or possibly more of the more than \$4,000,000 estate of his father, J. Mortimer Coward, head of the Coward shoe stores, under the latter's will.

This became known today when, on the petition of Mrs. Minnie Coward, the boy's grandmother, an order was signed giving her power to enter her son's safe deposit box in the Greenwich Safe Deposit company and get from it his will.

Representatives of Mrs. Coward and

Representatives of Mrs. Coward and the court then filed the document with Probate Clerk Killoran. Mr. Coward who was 23, died last Saturday in Havana, Cuba. Black and White Cleansing Cream gives to your skin the well-cared-for appearance so sential to feminine charm.

It is absolutely harmless and free from "dope" (such as nacestics, chloroform, cannabis or other injurious drugs). Children like its taste, and it will not upset the digestion.

For over 20 years PERTUSSIN has been one of the most widely used remedies for whooping cough. It is good for any member of the tamily—children as well as for adults.

You're not invited to sit at the table and to know the joys and comforts of married companionship. You're not in-vited chiefly because you wouldn't understand, anyway. And no one is go-ing to take the trouble to enlighten you against that closed mind and closed

The outstanding advantage of married life, we have from reliable sources of information, is that you live longer. But then I don't think a misogynist would be interested in that argument. Being sour on life, anyway, why would you want to prelong it?

Doctor Found Women and Children Sick More Often than Men

As a family doctor at Monticello, Illinois, the whole human body, not any small part of it, was Dr Caldwell's practice, More than half his "calls" were on women, children and babies. They are the ones most often sick. But their illnesses were usually of a minor nature—colds, fevers, headaches, biliousness—and all of them required first a thorough evacuation. They were constipated.

constipated.

In the course of Dr. Caldwell's 47 years' practice (he was graduated from Rush Medical College back in 1875), he found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1892 he decided to use this formula in the manufacture of a medicine to be known as Dr. Caldwell's Syrup Pepsin, and in that year his prescription was first placed on the market.

scription was first placed on the had ket.

The preparation immediately had as great a success in the drug stores as it previously had in Dr. Caldwell's private practice. Now the third generation is using it. Mothers are giving it to their children who were given it by their mothers. Every second of the working day someone somewhere is going into a drug store to buy it. Millions of bottles of Dr. Caldwell's Syrup Pepsin are being used a year.

It's great success is based on merit, like it and take it willingly.

Every drug store sells Dr. Caldwell's Every dr Wall and floor cases. Call MR. DELLAPIELD, Leiter Bidg. Stores. Wab. 4380.
